

City of Groveport Stormwater Management Program Update for the City's Website – 1st Quarter 2020

Welcome to the City of Groveport Stormwater Management Page! Here you will find news and events for upcoming programs and activities related to stormwater.

The City of Groveport manages a stormwater program in accordance with its Municipal Separate Storm Sewer System Permit (also known as a MS4 permit) issued by the Ohio Environmental Protection Agency.

Recent Activities – January through March, 2020

- Monthly inspections were conducted at 2 construction sites covered under the Ohio EPA Construction General Permit for stormwater related discharges (Startech and Hickory Grove);
- A quarterly Stormwater Inspection was conducted at the City Maintenance Facility;
- Four stormwater pollution prevention plans were reviewed and approved for construction. They include Thornton's, Eastland Career Center, CMH Logistics and Bluestone Development;
- Follow the River Environmental, in conjunction with the City, completed the 2019 Annual MS4 Report and submitted it to the Ohio EPA in March; and
- A total of seventy six (76) Post Construction Best Management Practices (BMPs) letters were mailed out to businesses in March. These included 36 to sites constructed prior to 2003, 27 to sites constructed between 2003 and 2011 and 13 to sites constructed after 2011.

If you observe a stormwater violation you would like to report to the City, please contact us at 614-836-5301 or send an email to stormwatercompliance@groveport.org. Stormwater violations include, but are not limited to, sediment running off of construction sites, spills and dumping of chemicals, fuels or any other non-stormwater materials, including trash, into the storm sewers.

Thanks and remember, our stormwater ends up in the creeks and rivers in Groveport so let's keep our natural areas clean!
